

LEAD STORY OF THE MONTH

Zscaler Positioned as a Leader in Magic Quadrant for Secure Web Gateway

Source: Gartner (May 2011)

Zscaler, the leader in cloud security, was recently positioned by Gartner, Inc. in the Leaders quadrant of the "Magic Quadrant for Secure Web Gateway." Vendors in the Magic Quadrant are evaluated based on ability to execute and completeness of vision. The Magic Quadrant is a graphical representation of a marketplace at and for a specific time period. It depicts Gartner's analysis of how certain vendors measure against criteria for that marketplace, as defined by Gartner.

"Zscaler's position in the Leader's quadrant for secure web gateway makes sense based on our own assessment of their capabilities, and the conclusions of our customers that are using Zscaler," said Adam Rice, Chief Security Officer of Tata Communications, a leading global service, and Zscaler partner. Free web hosting is a boon to Phishers

Sony attackers allegedly used Amazon cloud for attack, and they may have done it legally. [Learn More](#) »

Adobe patches second Flash zero-day in 9 days

Adobe last issued an emergency update -- dubbed "out-of-band" -- on June 5, when it fixed a critical flaw that attackers were exploiting to steal Gmail login credentials. [Learn More](#) »

SECURITY PRACTITIONER'S COLUMN

AccessKenya launches Web filtering tool

Digital media firm AccessKenya Group has made its debut into cloud computing with the introduction of a security solution that allows Internet users to access software for a standard monthly fee.

The company has incorporated Zscaler Cloud Security to enable companies to control the Websites that their employees can access or time schedules they can do so as it seeks to differentiate its Internet offering in the competitive sector.

"In essence there is no acquisition cost, which means no capital expenditure and no deployment cost. You don't have to manage boxes, you simply pay a subscription fee and manage your policies. Using this approach IT staff are free from doing operational security chores of managing and patching boxes," said Mr Jonathan Somen, the AccessKenya managing director. [Learn More](#) »
