

Zscaler Cyber Academy

Data Security (EDU-220)

DATASHEET

About the Course

This course provides a detailed overview of Zscaler’s Data Security capabilities within the Zero Trust Exchange platform. It covers key components of the Data Security suite and guides you through the configuration and monitoring of policies to protect sensitive data and ensure compliance. It helps identify the need for a modern approach to data security, how Zscaler provides data security to users through the Zero Trust Exchange framework and Zscaler’s data security services for protecting data across various channels.
