

Reclaim Capital & Reduce Risk with Zero Trust Architecture

Embracing zero trust architecture creates a **cascading phenomenon of cost savings**.

Zscaler eliminates legacy tech debt, freeing leaders to accelerate AI adoption and M&A integration.

ZSCALER.COM/CUSTOMERS →

On average, when compared to traditional, appliance-based, network-centric security, Zscaler customers experience:

90%

elimination of appliances

79%

of security staff time freed for value-added work

85%

reduction in successful ransomware attacks

279%

return on investment

See how these customers have achieved **economic value** in one or more of our four pillars.

- OPTIMIZED INFRASTRUCTURE COST
- REDUCED OPERATIONAL COMPLEXITY
- MINIMIZED BUSINESS RISK
- INCREASED BUSINESS AGILITY AND ENHANCED PRODUCTIVITY

Optimized Infrastructure Cost

Retire point products such as firewalls, VPNs, and costly MPLS.

>\$3M

saved over legacy solutions

70%

reduction in costs

85%

savings on networking at project sites

90%

legacy appliances eliminated

~55%

lower networking cost

Reduced Operational Complexity

Eliminate costly appliance maintenance and point product complexity.

\$875M+

savings from transitioning 110 agencies

\$500K+

immediate savings from 10+ legacy solutions retired

50%

lower networking costs; hundreds of firewalls dropped

>\$300K

saved and 50% reduction in time-to-remediation

Minimized Business Risk

Safeguard intellectual property and corporate data by stopping threats before they strike.

\$6.5M+

annualized savings and 35x reduction in cyber events

\$4.25M

risk exposure decrease and risk remediation time cut from days to minutes

\$2M+

annual savings from eliminating 11 point products and 85% improved security posture

Increased Business Agility and Enhanced Productivity

Retire point products such as firewalls, VPNs, and costly MPLS.

20%

lower insurance premiums and M&A integration time reduced from 180 days to 48 hours

\$700K+

annual savings through BYOD program

<5min

for global updates (from days previously) and eliminated SVG servers across 60+ plants

30%

surge in productivity and multimillion-dollar annual savings

10X

reduction in help desk calls and millions saved by not deploying firewalls and network gear

Act Fast, Stay Secure.

About Zscaler
Zscaler (NASDAQ: ZS) accelerates digital transformation so that customers can be more agile, efficient, resilient, and secure. The Zscaler Zero Trust Exchange™ protects thousands of customers from cyberattacks and data loss by securely connecting users, devices, and applications in any location. Distributed across more than 150 data centers globally, the SASE-based Zero Trust Exchange is the world's largest inline cloud security platform.
