Zscaler Cyber Academy

Browser Isolation (EDU–233)

About the Course

The Browser Isolation (EDU–233) course offers a comprehensive exploration of Browser Isolation technology. Throughout this course, you will acquire a deep understanding of how Browser Isolation facilitates secure isolated access to potentially harmful internet content, ensuring the utmost protection for managed devices and networks. Additionally, the course delves into the ways in which Browser Isolation effectively safeguards against various threats and enables secure access to sanctioned SaaS and private web applications from unmanaged devices.
