

Executive Insights App

Curated Security, Risk, and Performance Insights for Executives

Overview

The Zscaler Executive Insights App empowers CXOs, CISOs, and IT leaders with curated insights that answer the most critical questions about their organizations’ security, risk, and digital experience. Available on iOS and Android, this app is designed to provide frequent updates tailored for decision making on the go, delivering the visibility executives need to lead confidently and manage operational security effectively.

Core Features

Curated insights: Go beyond static data with curated answers to strategic questions tailored specifically for executives, ensuring every insight is actionable and relevant.

Unified visibility: Access security, risk, and digital experience metrics in one streamlined, easy-to-use mobile app.

Threat coverage mapping: View how Zscaler products secure your organization against specific threats. High-profile threats are classified based on relevance and risk levels, enabling you to take proactive action with confidence.

Key Benefits:

- **Stay connected:** Access curated insights on your organization’s security and performance without the need for complex reports.
- **Lead with confidence:** Make swift, informed decisions with clarity provided by insights tailored to your needs—no matter where you are.
- **Align your team:** Share executive-level insights to foster collaboration, engagement, and alignment around shared goals.
- **Stay informed:** Quickly confirm if your organization is protected from high-profile threats and leverage insights to communicate security status with leadership effectively.
- **Streamline security and risk management:** Identify, prioritize, and act on threats proactively, ensuring stronger organizational resilience.

Risk360 access: Included with the app, Risk360 standard allows users to drill down into risk scores, view the financial impact of risks, and see how each stage of a potential breach impacts overall risk.

Industry benchmarking: Compare your organization's security posture to industry peers, helping you gauge strengths and identify areas for improvement.

Timely security alerts: Stay proactive with notifications on emerging security threats, the latest research, and breaking security advisories from ThreatLabz.

Use Cases

On-the-go security monitoring: Check security posture and threat status between meetings or while traveling.

Self-service data discovery: Access answers to strategic questions without relying on reports or multiple dashboards, getting answers to key questions independently.

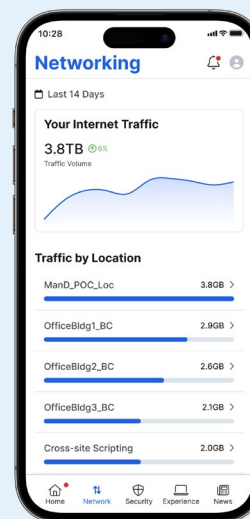

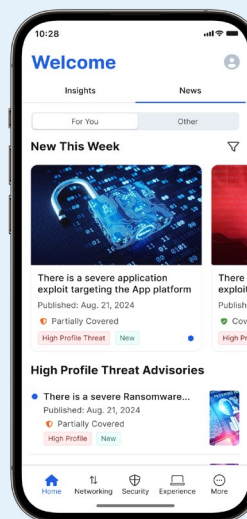

Proactive threat awareness: Stay updated on emerging risks with frequent security advisories and industry-relevant updates from Zscaler ThreatLabz.

Note: Authentication requires your IT team to enable the Executive Insights Admin role. For setup instructions, please refer to the app's documentation.

Getting Started

The Zscaler Executive Insights App is available for iOS and Android. Download it today to access curated, actionable organizational insights anytime, anywhere.
