

About the Course

Fundamentals of AI (EDU-110) builds the AI foundation every security professional needs. This self-paced eLearning course covers how Machine Learning and Large Language Models work, how technologies like Retrieval-Augmented Generation, Model Context Protocol, and Computer Vision extend AI capabilities, and how Agentic AI systems perceive, reason, and act autonomously. By the end, you will have a clear understanding of the AI landscape and the building blocks that underpin modern cybersecurity.

Fundamentals of AI (EDU-110)

Prerequisites	None
Learning Path	Click Here
Certificate	A completion certificate is awarded upon successful completion of: • Fundamentals of AI (EDU-110) eLearning course (55 Minutes) • Fundamentals of AI Security (EDU-111) eLearning course (65 Minutes) • Self-paced Lab (2 Hour) • Combined Test in EDU-111 (40 Minutes)
Resources	Visit Zscaler Cyber Academy for more information
Delivery Formats	Online: Self-Paced eLearning (55 Minutes)
Target Audience	Cybersecurity professionals and anyone who needs a practical view of AI risk and AI-enabled defense
