

Zscaler Cyber Academy

ZDX Operationalization (EDU-310)

DATASHEET

About the Course

ZDX Operationalization course aims to develop the hands-on skills and knowledge you need to know how Zscaler Digital Experience (ZDX) helps organizations to simplify the process of managing end user-reported performance issues. You will learn how to monitor digital experiences from the end user perspective, optimize performance, and rapidly troubleshoot and resolve application, network, and user endpoint device issues.
