Zscaler™ CSPM

Continuous Cloud Security and Compliance Assurance for Microsoft Azure, Amazon Web Services, and Office 365

Company

A Gartner-recognized leader in cloud security, the Zscaler Zero Trust Exchange includes cloud security posture management (CSPM) services that identify and eliminate cloud risks.

Product

Zscaler CSPM provides continuous visibility of security, compliance, and risk posture, enforcement of standards via guided and auto remediations, and allows continuous governance by setting policies, exceptions, and integrations with IT and risk management tooling.

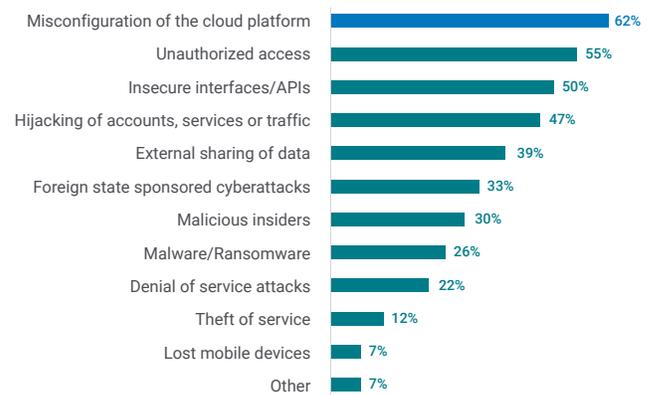

Customers

Enterprises, managed service providers (MSPs), and independent software vendors (ISVs) working in regulated industries, such as retail, healthcare, and financial services, among others, especially those interested in understanding and implementing cloud security controls.

Information Security		Risk and Compliance	
DevOps	SOC	Advisors	Auditors

Misconfigured cloud impedes digital transformation

Organizations are challenged to (a) prevent security breaches and (b) prove security for public cloud workloads.

Misconfiguration of the cloud platform	62%
Unauthorized access	55%
Insecure interfaces/APIs	50%
Hijacking of accounts, services or traffic	47%
External sharing of data	39%
Foreign state sponsored cyberattacks	33%
Malicious insiders	30%
Malware/Ransomware	26%
Denial of service attacks	22%
Theft of service	12%
Lost mobile devices	7%
Other	7%

Gartner recommendation

" Through 2024, organizations implementing a cloud security posture management (CSPM) offering and extending this into development will **reduce cloud-related security incidents due to misconfiguration by 80%.**"

Gartner

Offer overview

Product capabilities

Various product capabilities enable proactive management of cloud risks

Single Sign-On			
Visibility	**Governance**	**Administration**	**Integrations**
Security Posture 🔒	Cloud Security Policies	Users and Roles	Data Feeds
Compliance Posture	Compliance Frameworks	Cloud Accounts	Co-Branding 🔒
OS Security Policies 🔒	Remediations (Auto, Guided) 🔒	Scan Frequency 🔒	Ticketing
Risk Posture Prioritization	Policy Exceptions	Notifications	CI / CD
🔒 **Cloud Connectors** (Control Plane APIs)			
Azure	Office 365	AWS	Google (roadmap)

Items marked with 🔒 have limited capabilities as described below.
Eligible customers can request limits be removed/relaxed for the evaluation period. Offer is subject to change.

- **Cloud Connector**   A quota of one (1) cloud account per connector has been included. Total 3 cloud accounts.
- **Security Policies**   A limited set of approximately 250 policies across all cloud providers have been included.
- **Remediations**   Auto remediations have been restricted.
- **Scan Frequency**   On-demand scans are restricted. Defaults of daily scans are included.
- **OS Baselines**   Server operating system security baselines for Windows and Linux are restricted.
- **Co-Branding**   Customized co-branded experiences have been restricted.
- **Total Resources**   **Azure and AWS** - Up to 500 total resources; **Office 365:** Up to 1,000 users.

Compliance bundles included

Security	Compliance				Privacy
