

Zscaler Professional Services

PS Credits Offerings Catalog

Maximize your Zscaler investment and accelerate critical initiatives with Zscaler Professional Services credit offerings. Get hands-on, customized installation that meets your organization's cloud security adoption requirements. Optimize your Zscaler experience so you can kickstart your zero trust initiatives with enhanced performance, better security, and greater user experiences.

Project overview

Receive hands-on implementation of Zscaler products, with deep dives into a range of different offerings. Project implementation will be remote for all projects.

Methodology

A designated Professional Services Consultant will be assigned to your project. Resource assignment may take up to two (2) weeks. They will kickoff your project with stakeholder interviews to fully understand the scope and desired outcome of the engagement. This will be followed by implementation, based on leading practices and recommendations, taking into consideration all the details that make your organization unique.

Deliverables

We will align on the details of the engagement, set expectations, and then implement recommendations on your Zscaler tenant. We will also provide knowledge transfer and closeout documentation per respective offering.

Service Offering Categories:

- Zscaler Platform Deployment
- Staff Augmentation
- Transformation and Connectivity
- Migration
- Cyber Security Policy Services
- Deception
- Data Protection
- Logging and Visibility
- Optimization
- Rapid Response Services

Zscaler Professional Services Credits Overview

ZCES-PRO-CREDITS

Professional Services (PS) credits provide a simple and cost-effective way to gain access to world-class expertise and assistance from Zscaler's Professional Services team. PS Credits are a common currency that allows the customer to purchase credits at any time to be redeemed immediately or later (within 12 months of purchase date) toward a variety of fixed-scope service offerings that support a range of needs from transformation, optimization, migration, general deployment and more.

How Professional Services Credits Work:

- The minimum purchase is 20 Professional Services credits
- Credits can be redeemed as part of quoting process or can be redeemed later
- Credits expire one calendar year from the date of purchase, even if the credit account has not been activated or utilized Credits are non-refundable, and non-transferable
- Credits may not be redeemed for cash or credit
- Redemption quantity of credits must align to available service offering values. No fractional credit redemption or custom scoping is allowed
- Credits may be redeemed for Zscaler Professional Services offerings presented in this document and Zscaler Education

How to Redeem:

Professional Services Credits may be redeemed in accordance with the applicable equivalent unit value per respective offering as follows:

- Contact your Zscaler Customer Success Manager (CSM) or Account Executive (Sales) to initiate a request for Professional Services credit redemption for the respective offering
- A representative from Zscaler will work to confirm available credit balance, discuss the scope of work to be performed, and any required prerequisites to be completed prior to project kickoff
- Upon the confirmation of scope and readiness, a Professional Services Consultant will reach out to initiate the project
